

For students who are COMPUTING & INFORMATION SYSTEMS majors:

The Computer Science Department suggests freshmen take the following courses. Lecture courses with lab components are co-requisites and must be registered at the same time.

The following schedule represents a “**TYPICAL**” first-semester Freshman schedule for Computing & Information Systems:

CSC	115	Foundations of Computer Science	3 hours
ENG	101	English Composition	3 hours
Core Science Course with Lab			4 hours
MAT	205	Finite Mathematics	3 hours
BIB	110	Old Testament (OR BIB 120: New Testament)	3 hours
Physical Education Course (Optional)			<u>1 hour</u>
			17 hours

- Students should choose the Science Course that is most appropriate for his/her interests.

You may have AP credit, dual enrollment, or transfer hours that would change this “typical” schedule. You may be on a varsity sports team or in the choir and may need to adjust this schedule. The truth is that no one is typical, but this schedule is a good place to start. When you meet with your advisor to register, be sure to tell him/her about your specific set of circumstances so you end up with YOUR schedule and not just a typical schedule.

Chapel: Freshmen are required to take a total of 4 semesters of chapel. Freshmen are automatically enrolled in Freshman Chapel/Blue & Gold 101 for their first Fall semester.

Advising for Student Success
