

For students who are PHYSICS majors:

The Physics Department suggests freshmen take the following courses. Lecture courses with lab components are co-requisites and must be registered at the same time.

The following schedule represents a “**TYPICAL**” first-semester Freshman schedule for Physics:

ENG	101	English Composition	3 hours
CHE	141	General Chemistry I Lecture AND Lab	4 hours
MAT	121	Calculus with Analytical Geometry*	3 hours
BIB	110	Old Testament (OR BIB 120: New Testament)	3 hours
ART	125	Art Appreciation (OR MUS 125: Music Appreciation OR THE 125: Intro to Theater)**	<u>3 hours</u>
			16 hours

* Students without a solid foundation in High School math (Minimum = Algebra / Trigonometry / Pre Calculus or Calculus) OR less than a 25 on the Math section of the ACT are advised to take MAT 102 Trigonometry).

** OR choose another Core course.

You may have AP credit, dual enrollment, or transfer hours that would change this “typical” schedule. You may be on a varsity sports team or in the choir and may need to adjust this schedule. The truth is that no one is typical, but this schedule is a good place to start. When you meet with your advisor to register, be sure to tell him/her about your specific set of circumstances so you end up with YOUR schedule and not just a typical schedule.

Chapel: Freshmen are required to take a total of 4 semesters of chapel. Freshmen are automatically enrolled in Freshman Chapel/Blue & Gold 101 for their first Fall semester.
